

Solarfun Releases New Greenhouse Line of PV Modules

SHANGHAI, Sept 28, 2010 /PRNewswire via COMTEX News Network/ -- Solarfun Power Holdings Co., Ltd. ("Solarfun" or the "Company") (Nasdaq: SOLF), a vertically integrated manufacturer of silicon ingots, wafers and photovoltaic ("PV") cells and modules in China, is pleased to announce the release of its new "Greenhouse" line of PV modules. The sleek and seamless Greenhouse models have been custom-designed and manufactured for greenhouse applications to provide an innovative solar power solution for modern agricultural buildings.

Developed in collaboration with a leading architecture firm specializing in greenhouse design, Solarfun's Greenhouse modules are designed and manufactured to deliver high performance and reliability, with cell efficiencies reaching up to 17.6% under test conditions. In addition, the modules are based on a frame configuration that simplifies overall system design. The Greenhouse modules are easy to install, and have no special requirements for drainage or mounting. As with all of its products, Solarfun provides convenient local technical and installation support.

"We are pleased to release our latest application-specific solution to meet the unique requirements of greenhouse customers," said Dr. Mohan Narayanan, Vice President of Technology at Solarfun. "Solarfun's research efforts involve applying our high efficiency and reliability standards to new and innovative forms that provide unique solar power solutions for different markets."

Solarfun has obtained international ISO 9001 quality and ISO 14001 environmental standard certifications. Solarfun's Greenhouse modules conform to CE, IEC61215, IEC61730 and UL1703 requirements, and are backed by Solarfun's 25-year limited warranty.

About Solarfun

Solarfun Power Holdings Ltd. (Nasdaq: SOLF) is a leading manufacturer of solar PV cells and modules in China, focusing on delivering high quality and reliable products at competitive prices. Solarfun produces its monocrystalline and polycrystalline products at its internationally certified, vertically-integrated manufacturing facilities. Solarfun partners with third-party distributors, OEM manufacturers, and system integrators to sell its modules into large-scale utility, commercial and governmental, and residential/small commercial markets. Solarfun maintains a strong global presence with local staff throughout Europe, North America, and Asia. Solarfun embraces environmental responsibility and sustainability by taking an active role in the photovoltaic cycle voluntary recycling program. For more information, visit: www.solarfun-power.com.
